Hold for Washington meeting

Mr. Ray C. Hilliard
Mr. William F. Kuhn
Dr. Preston H. Leake
Mr. Larry A. Lyerly
Mr. James F. Nall
Dr. Fred Schultz
Mr. W. Brooks George

Gentlemen:

I am enclosing TITL's Tar, Nicotine, and CO report for Market Sample 31. The brands tested were obtained in the retail market place between mid-March and the first week of May, 1988.

Company results, rankings, and butt lengths appear as appendices to the report. The rankings and roundings were done from the original calculations using at least four decimal places. If ties still existed, they were broken using standard deviations.

Also included are files of TITL results on a 360K DSDD disk readable on any IBM compatible machine. Two files are in Lotus .wk1 format. One contains TPM, Water, and Puff Counts in addition to Tar, Nicotine, and CO; the other contains the rounded Tar, Nicotine, and CO values. These should be readable by most programs; however, the same information is also provided in ASCII files (with a .csv extension) with commas delimiting the data fields.

Yours truly,

William L. Steele
